

Broaster® Perfect Hold™ Deli Case

Included light guards not shown.

Standard Features

- *User-friendly design* – available in countertop and stand-alone versions.
- *Unique front glass design* – pivots down for easy cleaning.
- *Rollerless sliding glass doors* – easy to clean.
- *Mechanical timers* – track holding time for each row of pans to maintain optimum holding times.
- *Rheostats* – allow full range of light control for each zone.
- *Simplified controls* – offer uniform warming of foods.
- *Euro-look design* – provides excellent visual presentation and appeal.
- *Waterless system* – eliminates plumbing requirements and expense.
- *Recessed electrical upper controls* – reduce potential damage risks.
- *Protective light guards* - 3 guards for 4' and 5 guards for 6' cases
- *Single main power switch* – allows for easy start-up and shut-down.
- *Attractive Broaster color scheme* – reinforces brand image of quality with Broaster Express® or Genuine Broaster Chicken® logo.

Specifications

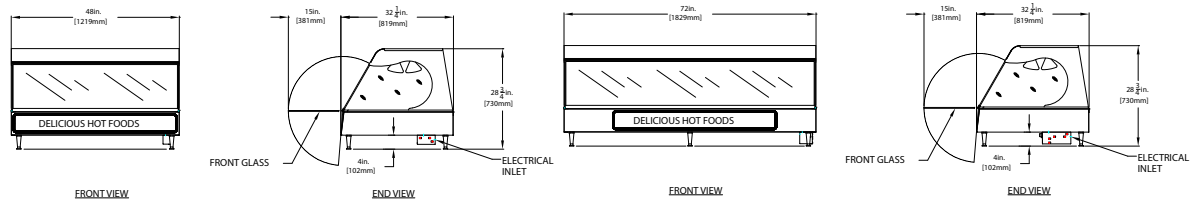

Model HDM-4 deli case with single shelf display area is stainless steel and tempered glass construction. Includes bottom-hinged drop-down front access glass display panel for easy loading and cleaning. Upper housing is air-cooled and includes 3 lighted 12" x 26" display zones. Each zone has recessed rheostats for full-range adjustment of display lighting and 3 individual timers to maintain optimum holding times. Model HDM-6 includes 5 display zones.

Rear access doors are of tempered glass and lightweight

aluminum channel construction. There are rollerless upper and lower nylon guides for lift-out loading and cleaning.

A master power supply switch and zoned temperature control systems help maintain safe product temperature. Primary heat is provided below the food display by a recessed serpentine tubular metal sheathed element with dedicated thermostatic control. Lower heat system is water free with no plumbing required.
